A special committee has been appointed by the UC Board of Regents to consider the selection of a new UC president. President Saxon is retiring as of July 1, 1983.

The committee is developing guidelines for the search process and a statement of qualifications for the presidency. The search process is to include broad consultation with chancellors, faculty, students, staff and alumni.

Applications and nominations for Saxon's successor are being solicited from all over the country.

The special selection committee is chaired by Dean A. Watkins and includes Vilma Martinez, vice chair, Edward W. Carter, Frank W. Clark, Jr., Robert O. Reynolds, Stanley K. Sheinbaum, and Harold M. Williams.

UCSF will combine four Christmas/New Year's holidays and the Spring holiday, on an experimental basis for this year only, according to Chancellor Krevans. This will allow many departments and areas to close from December 25, 1982 to January 2, 1983, enabling most employees to have nine days off without taking any vacation time or non-pay status.

The schedule will be: four Christmas/New Year's holidays scheduled for Monday and Tuesday, December 27 and 28 and Thursday and Friday, December 30 and 31; spring holiday to be scheduled for Wednesday, December 29.

Hospitals and Clinics has a continuing responsibility for patient care services; therefore all employees in these areas should check with their department supervisors concerning exact holiday scheduling.

An assessment will be made next spring to determine whether or not this should be continued. Employee comments will be solicited again at that time.

Thanks to you it works . . . FOR ALL OF US.

Chancellor Krevans and The New Earth Jazz Quintet will launch the United Way Campaign and Prize Drawing on Thursday, October 28 at a noontime rally in Saunders Court. Ellen Newman, civic leader and director of several major Bay Area businesses, also will join the kickoff.

The campaign will last for one week with a goal of 25 percent campus participation and $150,000 in donations. In two campus mailings, each employee will receive donation and donor option cards and tickets for the prize drawing. Donors can mail their contributions or hand-deliver them to the Office of Development, 532 Parnassus Ave., street level, or to off-campus representatives.

Donors may designate specific United Way agencies, campus groups or other human service agencies for gifts.

A drawing of major prizes—including cases of fine wine, clothes and other donated prizes—is open to all United Way donors who contribute $12 or more. The prize drawing will be held Friday, November 5 in Saunders Court at noon.

The United Way helps one of every three Bay Area residents in some 220 human service agencies, including CHAD agencies, Bay Area Black United Fund, National Concilio of America and numerous programs serving individuals of all persuasions. Of every dollar collected, 90¢ goes directly to human care services and 10¢ to administrative costs.

For further information on the United Way Campaign or for listings of off-campus representatives call x5685.

NEWS BRIEFS

A second series of free evening health science lectures will begin in November, cosponsored by the Office of Public Service Programs and the Committee on Arts and Lectures.

Marcus A. Conant, MD, associate professor of Dermatology and chief of Dermatology Inpatient Service, will lecture on "Horrible Herpes: Why Nothing Works" on Wednesday, November 17. The lecture will cover a review of herpes—the incurable virus infection—what triggers it, the physiological effects and the latest treatment.

Evalyn S. Gendel, MD, director of the Human Sexuality Program, and Emmett J. Bonner, PhD, consultant and medical sociologist in San Francisco, will discuss "Attaining Sexual Fulfillment" on Wednesday, December 1. The talk will focus on preventing and treating sexual problems common to both men and women as individuals and as couples.

Both lectures will be held in Toland Hall from 7:30 to 9 p.m.

The series was begun last November as a pilot program and due to its popularity it will be continued this year. For further information call x3206 or x2571.

The Third Annual Riebe Lecture will be held on Saturday, October 23 at the Miyako Hotel, S. F.

Sponsored by the UCSF Alumni Association, the program will feature three presentations from School of Dentistry alumni: Bert Wolfsohn, '27, "The Healing Potential of the Massive & Sub-Massive Periapical Lesion"; Bill Ferber, '33, "Oral Surgery—Case Histories"; and Ray Curtner, '34, "The TMJ from a Growth & Development View."

The course has been registered with the Board of Dental Examiners of California and the Academy of General Dentistry for six units of credit. For registration information call x4723.

The Tenth Robert B. Aird Visiting Professor of Neurology is Joseph B. Martin, MD, Bullard Professor of Neurology, Harvard Medical School, and chief of Neurology at Massachusetts General Hospital. He will be in the Department of Neurology Monday to Thursday, November 8 to 11.

Martin will present the major Aird Lecture on Thursday in Room S 664 at 11 a.m. His topic will be "Implications of Neuropeptides in Neurologic Disorders."

Martin also will take part in teaching conferences and ward rounds at Moffitt, the VAMC and SFGH and will address the San Francisco Neurological Society on Wednesday, November 10, speaking on "Current Controversies in the Management of Pituitary Secretory Tumors."

The Aird Professorship honors the professor emeritus who chaired the department of Neurology from 1947 to 1966.

The Centennial Sterling Bunnell Memorial Lectureship Program will be held Thursday and Friday, November 4 and 5 at the Letterman Army Medical Center.

Sponsored by Letterman and the UCSF Department of Orthopaedic Surgery, the program is entitled "Surgery of the Hand" and will feature Ronan O'Rahilly, MD, director of the Carnegie Laboratories of Embryology and professor of Human Anatomy and Neurology, UC-Davis.

The course will investigate the principles of surgery of the hand through specific case studies by a panel of previous Bunnell lecturers including Joseph H. Boyes, MD, USC; Paul R. Lipscomb, MD, UC-Davis; Lee W. Milford, MD, University of Tennessee; R. Guy Pulvertaft, past president, British Society for Surgery of the Hand; and Daniel C. Riordan, MD, Tulane University.

The lectureship was established in 1961 in honor of Bunnell, who was world-renowned for his work in reconstructive surgery of the hand.

UCSF instructors are invited to submit proposals for funds in Instructional Use of Computing. The funds can be used for computer work for classes, student projects, development of instructional programs, purchase of computing equipment, generating and grading tests, item banking, item analysis, text editing and word processing.

Proposals should be confined to one to two pages and must specifically identify the planned instructional use, course number, number of students involved and budgetary needs. Eight copies must be submitted no later than October 29 to the Academic Affairs Office, S 115.

For further information on available funds through June, 1983, contact Martin Kamp, x4546 or Karl J. Hittelman, x1881.

In addition, a Computer Center account can be set up to use the facilities without submitting a proposal. For further information contact Patti Cordova at x2012.

Applications for UC cancer research grants for 1983-84 are due by January 7, 1983. The funds, made available through the President's Systemwide Cancer Research Coordinating Committee, are used to support new projects and may not be used to supplement projects funded from other sources.

Assistant professors are especially encouraged to apply; members of the Academic Senate also are eligible. In addition, applications will be accepted from full-time appointees at 40 percent, clinical and adjunct professors, and professional researchers. Further information and application forms may be obtained from the Contracts and Grants Office, 1483 Fourth Avenue, x2977.

More than 100 leading scientists from the U. S. , Canada, Europe, Mexico, Japan and Australia have been invited to attend the Second International Symposium on the Impact of the New Imaging Technology on Friday to Sunday, October 22 to 24 at the Fairmont Hotel.

The symposium is sponsored by the UCSF Department of Radiology and will address issues vital to the future delivery of medical care including: how the explosion of new imaging techniques affects health policy; the effect on hospitals and delivery of medical care; how nuclear magnetic resonance, computed tomography and sonography will affect the high cost of medical care in developed countries; and how the technology will affect the teaching of medicine.

School of Nursing students have established a loan fund to aid students in need of financial assistance. The fund has been set up in appreciation of Joan Healy, who has been director of Student Affairs since 1978 and administrative analyst since 1964.

Donations to the fund can be made through checks payable to the Joan Healy Loan Fund. Send them to the Office of Student Affairs, School of Nursing, Room N 319X. For further information call x1435.

The American Lung Association of San Francisco has awarded some $49,000 from its Strobel Medical Research Fund to help support eight CVRI researchers. They are: David G. Baker, PhD, Jahar Bhattacharya, MD, PhD, Michael J. Holtzman, MD, Stephen C. Lazarus, MD, Steven Shak, MD, Judd Shelliot, MD, Scott J. Soifer, MD, and Jonathan H. Widdicombe, PhD.

The Strobel Fund was established in 1977 and has funded 46 medical research projects in the Bay Area—half of them at UCSF.

Applications for 1983-84 funding are due October 18. For further information call the American Lung Association of San Francisco at 543-4410.

A new bill changer has been installed in the kiosk behind the School of Dentistry building on the corner of Kirkham and Fourth Avenue. It is open 5 a.m. to 5 p.m. and dispenses quarters for $1 bills and Susan B. Anthony dollars for $5 bills. Both Kirkham fee lots use Anthony dollars and quarters. Fees for the lots are 75¢ per hour—maximum $4 per day, or $2 per day if one enters the lots between 5 and 7 a.m. For further information call x2566.

In addition, the Kezar parking lot is now offering the UCSF campus community parking spaces for three months for $60 or $1.50 per day. The parking lot is open 6 a.m. to 6 p.m. weekdays only. For further information call 665-6699 or 558-3574.
